Sells Crescent Tools
They'll Serve You Well

A Word About the Care of Tools—

1. Don't misuse them. A wrench is not a hammer. And a plier is not the little brother of a crowbar. So don't pry with it. The wire cutter of a plier will not do the work of a bolt clipper.

2. Keep tools clean. Rust ruins more tools than wear. Wiping them with an oiled cloth after using will prevent rust and keep them always in good condition.

You Can Depend Upon
CRESCENT QUALITY

CRESCENT WRENCHES

SINGLE END WRENCH

Forged from special wrench steel. Hardened and tempered.

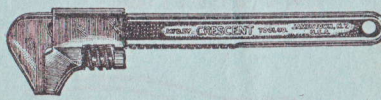
A14	4″	½″	capacity	A112	12″	1¾″	capacity
A16	6″	¾″	capacity	A115	15″	1⅞″	capacity
A18	8″	⅞″	capacity	A118	18″	2⅛″	capacity
A110	10″	1⅛″	capacity	Polished or nickel finish.			

DOUBLE END WRENCH

For those who want to save space and weight.

B146	4-6 ″	½- ¾″	cap.	B11012	10-12″
B168	6-8 ″	¾- 1⅛″	cap.	1½ - 1¾	capacity.
B1810	8-10″	1⅛-1⅛″	cap.	Polished or nickel.	

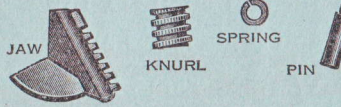
AUTO WRENCH



A large capacity, general purpose wrench. Forged steel, jaw and all. Polished finish.

019	9 ″	3 ″	capacity
0111	11″	2⅞″	capacity

This wrench must not be confused with cheap, inferior ones of similar pattern.



REPAIR PARTS

Crescent Dealers can supply parts for any Crescent wrench. Insist on genuine Crescent parts. In ordering, give the number of the wrench, followed by the initial of the part. If double end wrench, state which end.

CRESCENT PLIERS

CEE TEE CO PLIERS

A heavy duty, nickel plated tool, low priced, yet guaranteed. Machine polished. Slip joint style, with checkerdot knurled handles.
